# NATHANAEL UKPONG

FULL STACK WEB DEVELOPER  
(Frontend Heavy)  
With Focus in User Experience.

## PROFESSIONAL SUMMARY

Full Stack Web Developer with expertise in Frontend development and a focus on User Experience (UX). Proficient in Next.js, TypeScript and Django with a strong focus on delivering high-quality, user-centric solutions. Experienced in visual design, complementing my development capabilities.

## WORK EXPERIENCE

2022-Present

### LEAD WEB DEVELOPER

Sphenyx Digital Agency • Uyo, Hybrid

2020-2022  
(web Developer)

- Developed and maintained responsive web applications using various web technologies including HTML, CSS, Bootstrap, JavaScript, jQuery, PHP, etc. ensuring seamless functionality, optimal user experience and performance.
- Collaborated with cross-functional teams to gather requirements, design user interfaces, and implement frontend features.
- Collaborated with stakeholders to gather requirements, design database models, and implement backend logic.
- Conducted code reviews and implemented best practices to enhance code quality and maintainability.
- Implemented & integrated RESTful APIs and third-party services to improve application functionality and data retrieval.
- Utilized version control systems (e.g., Git) and project management tools (e.g., Jira) to facilitate collaboration and project tracking.
- Developed and maintained the company's customer management system (CRM) with third party add-ons, which has helped increase customer engagement by approximately 20% and a notable 15% increase in customer satisfaction.

2022-2023

### WEB DEVELOPER

BlazeSkills Inc • USA, Remote

- Developed responsive and user-friendly web applications using HTML, CSS, JavaScript & PHP.
- Collaborated with UI/UX design team to translate high fidelity mockups into functional frontend interfaces.
- Debugged and reviewed code using recommended tools and best practices to ensure overall code

## EDUCATION

---

### BACHELOR'S DEGREE IN BIOCHEMISTRY

University of Uyo  
2023

quality

- Conducted research and analysis on client's competitors and built search engine friendly pages to boost visibility on the web
- Tested and deployed code to a live web host to ensure all functionalities are up and running
- Implemented efficient API designs, enabling seamless communication between the frontend and backend systems.
- Utilized version control systems (e.g., Git) to ensure code integrity and facilitate team collaboration.
- Optimized application performance through

2022

### WEB DEVELOPER

#### Capital Orthopaedic • India, Remote

- Developed custom, responsive and user-friendly website theme using Wordpress & PHP.
- Collaborated with UI/UX design team to translate high fidelity mockups into functional frontend interfaces.
- Debugged and reviewed code using recommended tools and best practices to ensure overall code quality
- Conducted research and analysis on client's competitors and built search engine friendly pages to boost visibility on the web
- Tested and deployed code to a live web host to ensure all functionalities are up and running

## SKILLS (SOFT/HARD SKILLS)

---

### SOFT SKILLS

- Excellent problem-solving and analytical skills, with the ability to tackle complex challenges.
- Strong attention to detail, ensuring high-quality deliverables.
- Effective communication and collaboration, fostering productive team environments.
- Time management and multitasking abilities, handling multiple projects simultaneously.
- Attention to detail and commitment to quality
- Adaptability and willingness to learn
- Time management and prioritization skills
- Critical thinking, Organizational skills, Leadership, Creativity, Work Ethic.

### HARD SKILLS

- Frontend Development: HTML, CSS, SCSS, Bootstrap, Tailwind CSS, JavaScript, jQuery, TypeScript, React.js, Redux, Next.js.
- Backend Development: Django, Node - Express.js, PHP.
- API Design and Integration: RESTful APIs, GraphQL.
- Database: SQLite, Firebase, MongoDB, MySQL, PostgreSQL, etc.
- Visual Design: Adobe Photoshop, Adobe Illustrator, Corel Draw, Figma
- Version Control: Git, GitHub.
- Project Management: Jira.
- Deployment and Hosting: Heroku, AWS, Netlify, Firebase, etc.
- Containerization: Docker.

## REFERENCE

AVAILABLE UPON REQUEST

## DELIVERABLES

---

- Frontend: Responsive, intuitive and user friendly interfaces, efficient performance, interactive web components, cross-browser compatibility, accessibility
- Backend: RESTful APIs, data modeling, server-side logic, authentication and authorization, database integration.
- API Design: Robust and scalable well-documented API architecture, data validation, error handling
- CMS: Content management systems development and customization. (WordPress, Strapi CMS, etc.)
- Cloud Computing: Deployment and hosting on cloud platforms for scalability and reliability.
- Testing & Debugging
- DNS Management
- Agile Development Methodologies

## ADDITIONAL INFORMATION

---

- Strong passion for staying updated with the latest web development trends and technologies.
- Active participant in online developer communities.
- Attended conferences and workshops to expand knowledge and network with industry professionals.
- Fluent in English.
